

# weeping rose

## Interesting fact

The rose is 35 million years old,  
according to fossil evidence.

centennial  
park

## BOTANICS

- Weeping Roses
- Weeping Acacias
- Gleditsia Sunburst

## DESCRIPTION

The luxuriant hues presented as the roses drape over the sculptured rose stems offer a marvellous display of colour and structure. The magnetic charm of this area draws the humming of birds and endearing koala wildlife, which encapsulates a perfect picnic setting.

Overlooked by the Jubilee Complex that is cloaked by vibrant purple wisteria, this garden presents a truly stunning location.

## FACILITIES

- Car parking (20m)
- Toilets (30m)
- Ample water taps and bins

## PEAK BLOOM TIMES

Mid October –  
Mid November
