**A place to visit and remember**

Springbank  
West

## Memorialisation

Centennial Park provides a stunningly beautiful community space to enduringly commemorate loved ones.

Memorials are a physical place and meaningful anchor point, connecting us to the life and memories of those we have loved and lost.

They are just as much for the living.

Our consultants are here to help you through the process and answer any questions you may have.

**Appointments are essential and can be made by calling 08 8276 6011 or email us at [memorial@centpark.org.au](mailto:memorial@centpark.org.au)**

# Contemplation Court

## A temporary ashes memorial area

Without a physical place to visit, family and friends can often feel lost while mourning the loss of a loved one.

Our cremation service includes the placement of your loved one's ashes at Contemplation Court, our temporary ashes memorial facility. Contemplation Court provides a peaceful and reflective space for people to visit for up to six months after the cremation.

Centennial Park is proud to be the only cemetery in South Australia and the first in the country to offer this service.

# Ashes Placement Ceremony

## Witness the placement of your loved one's ashes in their final resting place

Following the selection of a memorial position, you can book your Ashes Placement Ceremony.

The service includes a Centennial Park team member to assist with the placement of your loved one's ashes.

Reflect the individuality of your loved one by arranging a priest, minister or civil celebrant, play a favourite song, read a poem or toast with champagne. You are welcome to organise personal touches to tailor your ceremony.

A small memento can be interred with the ashes, such as a family photo, memorial card, a personal message or rosary beads. The memento must be very small and delivered to Centennial Park 24 hours prior to the placement if you wish to have it placed inside the ash container. The memento will not be retrievable at any time in the future.

**On the day**

In readiness for the ceremony, the chosen memorial position will be prepared, and the plaque or marker placed. Our team member will meet you at the memorial position at the prearranged time.

Family members can place their loved one's ashes in their memorial position, or our team member can place them on your behalf.

You and your family are welcome to remain at the memorial position for as long as you wish.

Following the placement, you can choose to gather with family and friends in our Function Rooms or reserve a table at Wildflowers Café. Your Memorial Consultant can help you with a reservation.

**Bookings are essential and can be made with your Memorial Consultant.**

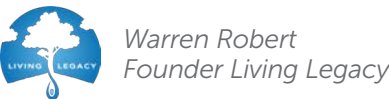

# Living Legacy

The Living Legacy Forever Flowers memorial is an environmentally conscious way to return a loved one's ashes to the earth, providing a beautiful place for friends and family to visit while contributing to a botanical environment.

Centennial Park has partnered with Living Legacy to exclusively offer this unique living memorial alternative as part of our environmental sustainability plan. The plan responds to the increasing demand for sustainable, less emission-intensive end-of-life choices.

Living Legacy has formulated a scientific process that balances pH and detoxifies ashes, turning them into micronutrients that support flower growth, providing a sustainable alternative to traditional memorials.

*"By becoming part of the Living Legacy Forever Flowers Garden your life goes on to create a positive touchpoint that connects loved ones to the beauty your life created."*

# General Ashes Memorial Information

## New Ashes Memorial Interment Rights

Interment Rights for new ashes positions are issued for a minimum of 30 years with the option for longer terms and perpetuity (forever).

We highly recommend families speak with us to arrange an appointment to visit Centennial Park to look at all the different options available to ensure your needs are met. Please note that your loved one’s ashes can also be interred in burial positions at Centennial Park.

While all memorial gardens at Centennial Park are irrigated, not all burial areas are. This is another reason to contact us to find out about all the options available.

There are specific monumental (e.g. plaque, headstone) requirements in particular burial and ashes memorial areas. A Plain English Statement (CCASA Form) must be completed by the proposed Interment Right Holder, for all new ashes Interment Rights, before an interment can occur.

## Interment Right Holder

The rights and responsibilities are defined in the Plain English Statement Form. The family must decide who will be the Interment Right Holder, as only the Interment Right Holder can authorise interments and monumental work (headstones, inscriptions, plaques, etc) at the position.

## Transfer of Interment Right Declaration Form

A Transfer of Interment Right Declaration form must be completed before the re-opening of a burial or ashes memorial position for an additional interment, where the Interment Right Holder is deceased.

A Transfer of an Interment Right is only permitted with the approval of Centennial Park.

## Additional Tenure

Anyone can extend an Interment Right tenure, at any time, with a five (5) year minimum.

## Perpetuity (forever)

A perpetual interment right ensures a burial or ashes memorial will remain forever, with no need for future generations to renew.

## Plaques

Centennial Park arrange, supply and install plaques throughout our memorial gardens in both bronze and granite.

Your Memorial Consultant will assist you in creating a plaque proof that reflects your loved one’s life and personality. The proof can be created during a meeting at Centennial Park or in the comfort of your home.

Plaque type, size and material vary from each garden (memorial type) and are individually costed.
